

SCC SOFT COMPUTER REGULATORY AFFAIRS QUICK REFERENCE

SCC'S SOFTLAB® VERSION 4.0.8 HAS RECEIVED 2015 EDITION HEALTH INFORMATION TECHNOLOGY CERTIFICATION

(Clearwater, FL) July 19, 2017 – SCC Soft Computer is pleased to announce that SCC's laboratory information system, SoftLab, version 4.0.8 has received 2015 Edition Health Information Technology (Health IT) certification.

SoftLab version 4.0.8 was certified by ICSA Labs, an Office of the National Coordinator-Authorized Certification Body (ONC-ACB)^{1,2} in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services.

This certification does not represent an endorsement of the certified Health IT technology by the U.S. Department of Health and Human Services.

SOFTLAB 4.0.8

On July 6, 2017, SCC Soft Computer's SoftLab 4.0.8 received 2015 Edition ONC Health IT Modular EHR certification (certification number 170009R01).

CERTIFICATION CRITERIA

SoftLab version 4.0.8 received 2015 Edition ONC Health IT Modular EHR certification for the following criteria:

- ✓ 170.315(d)(1): Authentication, access control, and authorization
- ✓ 170.315(d)(2): Auditable events and tamper-resistance
- ✓ 170.315(d)(3): Audit reports
- ✓ 170.315(d)(7): End-user device encryption
- ✓ 170.315(f)(3): Transmission to public health agencies – reportable laboratory tests and values/results
- ✓ 170.315(g)(4): Quality Management System
- ✓ 170.315(g)(5): Accessibility-centered design

ADDITIONAL SOFTWARE

The additional software relied upon to comply with one or more of the certification criteria include:

- ✓ SCC Soft Computer ELR Interface

¹ ICSA Labs, an independent division of Verizon, offers vendor-neutral third-party testing and certification of security and health IT products, as well as network-connected devices, to measure product compliance, reliability, and performance for many of **the world's top security vendors**.

² ONC Health IT 2014 and 2015 Edition Certification is granted to those technologies that are capable of meeting the more rigorous testing criteria developed to support providers and hospitals who wish to deliver higher quality patient care and exchange clinical information securely.

SoftLab is a registered trademark of SCC Soft Computer in the United States and Canada.

COSTS AND LIMITATIONS

- ① User acquires access to the Software License by paying a License Fee. User receives a perpetual license to use the software. Because many of the company products are FDA regulated, the user will terminate its right to use the licensed software if maintenance of the licensed software is terminated by the user.
- ② In addition to the License Fee, there is a onetime implementation fee and training fee quoted to help the user move from test system to production system in live operation.
- ③ Once Live Date occurs and the software is used in a production environment, software maintenance commences. Software Maintenance fee is a percentage of the Software License Fee. Updates to newer versions of the user's Licensed Software is offered for no license fee as part of the annual maintenance.

EDUCATION COURSES

- ① SCC Soft Computer offers a variety of online or on-site training classes that are listed on the website.

THIRD PARTY FEES

- ① SCC Soft Computer is an authorized reseller of IBM and Oracle products and services. IBM and Oracle products are offered as a pass-through courtesy to users and will be quoted when requested by the user.
- ② SCC Soft Computer offers interfaces to laboratory and HIS vendors, as requested by the users. The interfaces are offered under an initial license fee and an annual maintenance fee.
