

# SCC Soft Computer Carbon Reduction Plan

Supplier Name: SCC Soft Computer

Publication Date: March, 2024

## Commitment to achieve net zero:

SCC Soft Computer is committed to achieve net zero carbon emissions by 2050.

## Baseline emissions footprint:

Baseline year: 2018

Baseline Year Emissions:

Emissions	TOTAL (tCO <sub>2</sub> e)
Scope 1	*Not available at this time
Scope 2	1156
Scope 3	*Not available at this time
Total Emissions	1156

\* SCC Soft Computer has implemented and is certified to ISO 14001. We are currently using our Environmental Management System framework to measure Scope 1 & 3 emissions as accurately as possible.

## Current emissions footprint:

Current year: 2024

Baseline Year Emissions:

Emissions	TOTAL (tCO <sub>2</sub> e)
Scope 1	*Not available at this time
Scope 2	1135
Scope 3	*Not available at this time
Total Emissions	1135

\* SCC Soft Computer has implemented and is certified to ISO 14001. We are currently using our Environmental Management System framework to measure Scope 1 & 3 emissions as accurately as possible.

## **Emissions reduction targets:**

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets. We project that carbon emissions will decrease over the next five years to 1000 tCO<sub>2</sub>e by 2030. This is a reduction of 10%.

## **Carbon Reduction Projects:**

Completed Carbon Reduction Initiatives: The following environmental management measures and projects have been completed or implemented since the 2018 baseline. The carbon emission reduction achieved by these schemes equate to 21 tCO<sub>2</sub>e, a 2% reduction against the 2018 baseline and the measures will be in effect when performing the contract:

- Replacement of fluorescent lighting in SCC HQ to more efficient LED lighting (estimated 85% reduction in energy usage)
- Upgrade of HVAC to a zone-controlled system which reduces energy usage during off hours and low occupancy periods
- Installation of electric vehicle charging stations for employee and public use
- On-going evaluation of conversion to solar power
- Reduction of Scope 1 emissions due to reduced commuting to office by employees
- Implementation and certification to ISO 14001

In the future we hope to implement further measures such as:

- Reduction of real estate footprint due to increased remote work by employees
- Additional review/implementation of solar power installation

## **Declaration and Sign Off:**

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans. Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard 13 and uses the appropriate Government emission conversion factors for greenhouse gas company reporting . 14 Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard

for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard . 15 This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body). Signed on behalf of the Supplier:

Gilbert Hakim
